# SEAL 62 Plus
Laminators

The 62 Plus is SEAL's most successful laminator ever. It offers pre-defined control settings, easy material loading and other user-friendly features that make sure new users will have its operation down to a fine art within minimum time!

Capable of mounting, laminating and encapsulating up to 1575 mm digital prints, the 62 Plus can operate with a wide range of materials, including the popular Stoplight range of films.

When finishing inkjet prints the Jet Guard range is recommended, which operates at lower temperatures than traditional films and are the ideal solution for inkjet prints.

The 62 Plus is ideal for producing a wide variety of applications:

Rigid Indoor Displays   Flexible Indoor Displays   Floor Graphics   Backlit Displays   Pop-Up Displays   Rigid Outdoor Displays

The SEAL 62 Plus provides the following features

Optimum performance
- Temperature settings: 50°C, 95°C, 110°C, 120°C
- Automatic cooling fans for efficient film cooling and smooth performance during heat sealing applications
- Pull roller system for tensioning of material for a flat and even finish
- Microprocessor controller for even temperature control

Ease of use
- Touch pad control panel with predefined settings for temperature, speed and substrate thickness
- High release silicone rollers for easy cleaning
- L.E.D. setting indicators
- Swing out supply shafts with unique auto-grip for easy loading and positioning of materials
- Simple film tension adjustment
- Automatic upper take-up shaft for removing release liners
- Swinging in-feed table for easy material loading
- Roll-to-roll option

Safety
- Foot switch for hands free operation
- Comprehensive safety system with emergency stops and self-testing optical safety guard
- CE certified

Other Features
- Sturdy stand alone design with castors and levelling feet
- Quiet mechanical operation
- Anti-static pull rollers to eliminate static build-up

Laminators

Technical Specifications

Maximum Working Width	1575 mm
Maximum Speed	1,8 m/min.
Maximum Roller Opening	25 mm
Maximum Roller Temperature	120°C
Width	2200 mm
Depth (excl. tables)	630 mm
Depth (incl. tables)	762 mm
Height	1220 mm
Net Weight	530 kg
Shipping Weight	580 kg
Electrical Requirements	3N/PE 200-250 VAC +/- 10%, 50/60 Hz, 16A
Maximum Power Consumption	7000 Watts

SEAL® is a registered trademark of SEAL Graphics

Touch pad control panel with predefined settings for temperature, speed and substrate thickness.

Swing out supply shafts with unique auto-grip for easy loading and positioning of materials.

Optional roll-to-roll.
